

SERIES LINE STAINLESS STEEL

Automatic linear bottling machine for filling bottles, suitable for edible and detergent liquids.

Technical Features

- Bottle infeed by conveyor belt
- Bottle stop by electro-pneumatic controlled gates
- Incoming bottle check device
- Pressure volumetric filling
- Stainless steel pneumatic liquid valves, with Teflon or Viton seals
- Valves adjustment by handwheel
- Liquid discharge valves fast adjustment
- Machine stop safety device intervening in absence of bottle
- Bottle outfeed by conveyor belt, with outgoing bottle check
- It is possible to have PVC construction for acid liquids.

Structure

Stainless steel, polyethylene, Plexiglas, according to the chemical features of the product to fill.

Optional

Liquid dosers in Pirex glass or stainless steel, Teflon seals, bottling machine supply self-priming pump, diving nozzles, with raise speed adjustment. Bottleneck centring device, operation panel for data setting by keyboard and display.

Power

400/230/24 + compressed air.

MODEL	Filling Heads	Filling	Dosing range	Capacity l/hour	Overall dimensions			
					A	B	C	H
LINE 4 2 lt	4	pressure	100/2000	1000/1500	950	1500	4000	2100
LINE 6 2 lt	6	pressure	100/2000	1600/2200	1250	1500	4500	2200
LINE 8 2 lt	8	pressure	100/2000	2000/3000	1550	1500	5000	2200
LINE 10 2 lt	10	pressure	100/2000	2500/3700	1850	1500	6000	2200
LINE 4 5 lt	4	pressure	500/5000	1800/2300	1000	1600	4000	2200
