SCALIGERA

packaging

ERREGI AUTOMATION s.r.l.

5 good reasons for **sleeve** packaging...

- strong and flexible plastic film
- adds colour to your product and enhances its image
- seals, protects and guarantees the product which reaches the consumer
- it's the ideal covering for any kind of container (glass, plastic, aluminium, ...)
- it can cover 100% of the product thanks to its heat shrinking properties

Ulisse

TECHNICAL FEATURES

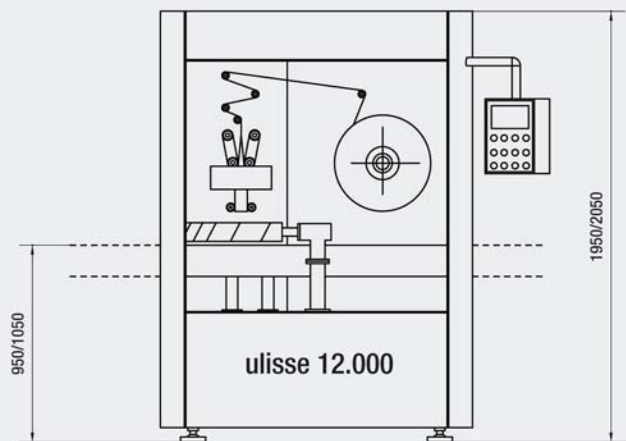

Ulisse is the product of experience acquired over many years in the search for technologically innovative solutions. The results obtained are demonstrated by the simplicity of the applied mechanisms, reliability for full-time production and flexibility in changing production. Ulisse has been designed for companies which want to give their products a new look by adopting new technologies which are easy to apply and guarantee a level of market impact which can yield immediate results.

Safety has been achieved by scrupulously observing the relevant standards to ensure trouble-free operation. The **computerised running** of the machine also throws up interesting possibilities for managing the production process data with interface to company databases.

An online customer support service through the Internet guarantees the user company completely smooth operating.

OPTIONALS

- Sleeve heat-shrinking oven (air/steam)
- Total sleeve positioner-Guarantee seal positioner
- Horizontal or vertical pre-cut
- End of reel control
- Double reel storage
- Check on presence of sleeve on container
